1.2 Opis Funkcionalnosti

- Sajt je namenjen da predstavi jednu turističku agenciju. U bazi podataka nalaze se sve moguće destinacije sa svojim parametrima. Predviđeno je da ulogovani korisnik može da vidi pojedinačne destinacije, njihove opise i aktivnosti koje su vezane za pojedinačne destinacije, i potom da odradi rezervacije. Sam postupak rezervacije za sada nije odradjen, iako u bazi i na frontu imaju svi potrebni podaci da se ovo odradi.
- Dinamička učitavanja iz baze podataka skoro svega što može da se učitava dinamički, među čemu je navigacioni meni, footer, prikaz galerije itd.
- Ima pregršt funkcija koje se koriste što u javascriptu što u php-u. Najbolje se mogu učitati ili iz samog koda ili iz surfovanja sajtom.
- Admin panel: Odradjen select, delete, i pretraga. Sve sa ajaxom isključivo.
- Logovanje je odradjeno pop-upovima, kao i kontakt forma.
- Baza podataka je napravljena, radi jednostavnosti, tako da su svi hoteli uvek dostupni, da se rezervacije mogu izvršavati bez obzira na to da li se preklapaju sa drugim rezervacijama, da su sve dužine putovanja jednake.

2.2 Nav

Navigacija sajta je napravljena tako da se elementi dinamički ispišu iz baze podataka, preko laravela i blejda. Responzivna je i kada se rezolucija dovoljno smanji pojavljuje se hamburger iza kojeg stoji meni. Funkcionalnost ovog menija odradjena je pomocu javascripta i php-a. Na klik na meni on se pojavi i kada se nesto izabere on nestane. U zavisnosti od toga da li je korisnik ulogovan, i da li je admin, blago ce se razlikovati postojanje meni item-a.

Ispod se može videti padajući meni iz hamburgera koji se otvara na pritisak preko mobilnog, ili na hover ako je sa mišem.

2.3 index

Na pocetnoj stranici prikazuju se destinacije koje dolaze u opticaj za putovanja. Ispis je odradjen pomocu blejda pretežno. Prikazana je najjeftinija cena koja se racuna tako sto se pronadje najjeftiniji hotel za datu destinaciju i pomnozi brojem dana. Sva putovanja traju 12 dana. Slike su u carouselima za svaku destinaciju. Klikom na neku od destinacija otvara se detaljniji prikaz, koji sadrzi mnostvo informacija, kako o samoj destinaciji tako i o turama koje se obavljaju u blizini.

Efes

Efes is one of seven world wonders. Legend says that Efes has been raised by woman warriors - Amasons, and that the greek philosopher Heraclit was born in it. Likewise, Efes praised the goddess Arthemides, protector of woman and mothers. Specifically interesting is the fact that in this city Saint Mary, the mother of Jesus, used to live. Remnants of chaotic past, Arthemides temple, amphitheater, and Celsiuses library are just some of the options for your summer adventure. Today they attract millions of tourists and represent the wealthiest archaeological land in Little Asia.
